

## EMEC KMF & KAMF Digital Multi Function Pumps (1 l/hr to 18 l/hr)

- Includes Installation Kit, i.e. foot valve, injection valve, 2m of Suction tube and 2m of Delivery tube
- Programmable Modes: Constant, Pulse with Multiply/Divide, PPM, Percentage, Batch, Volt, mA
- **Standard head:** PVDF with Viton Seals
- **Head for Caustic:** PP with EPDM seals and SS Balls
- **Degassing (self-venting) head for Chlorine:** KAMF models only
- **High Viscosity heads for Polymer:** KMF LPV models only (8000 cps max.)
- Adjustable stroke length (10-100%)
- Backlit LCD Display of Strokes/Min, L/HR, PPM, etc
- Optional SEFL Flow Switch alarms if pump loses prime
- Programmable alarm relay output
- Pump enable/standby input
- Float on foot valve stops pump dosing when chemical level in tank is low
- Double ball check valves in foot valve, suction & deliver valves
- Long lasting Solid Teflon diaphragm
- Reliable & accurate dosing
- Wall Mount with optional Front or Side Mount Bracket
- Alternate code: EMEC KMSMF or EMEC KMSAMF
- **TIP:** [see available Models / Part Numbers below](#)
