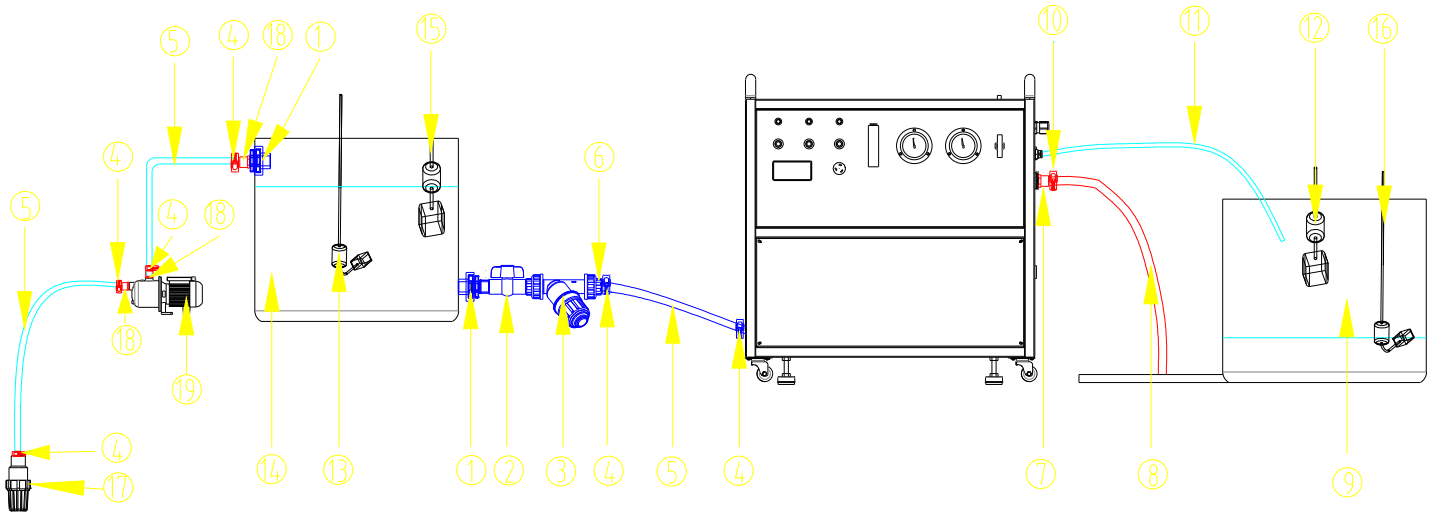
Raw water tank
Customer Scope

Seawater Desalination Machine
YB-SWRO2000-2

Production water tank
Customer Scope



No.	Name	Code	Specification	Number	Note
19	Self-priming pump	WSDL005	Self-priming	1 pcs	Customer prepare
18	External direct connection	WSDL059	1 inch	3 pcs	This part is one of the parts required for the connection of the original water pump.
17	Bottom valve	WSDL057	½inch	1 pcs	This part is one of the parts required for the connection of the original water pump.
16	Liquid level switch in production water	WSDL018	Length 4 m	1 pcs	
15	Liquid level switch in raw water	WSDL018	Length 4 m	1 pcs	
14	P.E.tube	GE0Z4.8	¼inch	Customize	This fitting is used for equipment production water pipe.
13	Raw water low level switch	WSDL018	Length 4 m	1 pcs	When the raw water tank liquid level is low, the equipment stops automatically.
12	Water production high level switch	WSDL018	Length 4 m	1 pcs	When the production water tank liquid level is high, the equipment will stop automatically.
11	P.E.tube	GE0Z4.8	¼inch	Customize	This fitting is used for equipment production water pipe.
10	Concentrated water pipe hose clamps	1IA001	22-32	1 pcs	This fitting is one of the parts required for concentrated water discharge connection.
9	Production water tank				Provide for oneself
8	Serpentine hose	10E016	Inner diameter 20mm	Customize	This fitting is one of the parts required for concentrated water discharge connection.
7	Direct external teeth	WSDL052	DN15	1 pcs	This fitting is one of the parts required for concentrated water discharge connection.
6	Core repair	HB015	32-25	5 pcs	This fitting is one of the parts required for the raw water tank connection equipment.
5	Steel wire hose	10F016	Inner diameter 25mm	Less than 5 m	This fitting is one of the parts required for the raw water tank connection equipment.
4	Raw water pipe hose clamps	1IA001	22-32	6 pcs	This fitting is one of the parts required for the raw water tank connection equipment.
3	Y-filter (standard)	FH001	DN25	1 pcs	This fitting is one of the parts required for the raw water tank connection equipment.
2	Ball valve	GYA022	DN25	1 pcs	This fitting is one of the parts required for the raw water tank connection equipment.
1	Tank joint	HB002	DN25	2 pcs	This fitting is one of the parts required for the raw water tank connection equipment.
